Oroville Dam Auxiliary Spillway Incident

On 05/08/17 at 0928 hours the California State Warning Center (CSWC) was advised by the Department of Water Resources (DWR) that they will begin the scheduled increase in flows to the Feather River on 05/10/17 at 0500 hours.

- Total flow will gradually increase from 7,750 cfs to approximately 30,000 cfs by 1130 hours.
- The Oroville Dam Flood Control Spillway flow will increase to 30,000 cfs.
- Hyatt Power Plant will be operated as needed to meet ramping and storage demands.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 05/12/17 at 0600 hours](#):

- Inflow: [22,925](#) cfs.
- Outflow: [30,145](#) cfs.
- The current lake elevation is [845.50](#) feet.

Mission Tasking

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – On Scene.

Train Derailment, Palmdale, Los Angeles County, SPILL: 17-3389

On 05/12/17 at 0625 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising one locomotive derailed in the upright position at mile post #428, Mohave Subdivision, Palmdale, Los Angeles County.

- There was no hazmat release and no injuries to crew or passengers.
- No mainline closures were imposed.
- The cause of the incident is under investigation and re-railment is being assessed.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Placer County:

- Placer County: Truckee River at Truckee is forecast to be at flood stage at 4.5 feet on 05/12/17 at 0500 hours.
 - Potential Impacts: Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: Merced River at Stevinson

Service Interruptions:

- None reported

Remote/Community Isolations:

9-1-1 Outage, Linden, San Joaquin County

On 05/11/17 at 1621 hours, the California State Warning Center (CSWC) received a report of a 9-1-1 Outage affecting the community of Linden, San Joaquin County. Frontier reported the outage to the Cal OES 9-1-1 Branch on 05/11/17 at 1610 hours. The outage started on 05/11/17 at 1443 hours.

On 05/11/17 at 1951 hours the CSWC was notified by the Cal OES 9-1-1 Branch that:

- On 05/11/17 at 1920 hours, service and regular phone service was restored to the community of Linden.
- The reason for the outage was a damaged fiber optic cable.
- Frontier has been unable to find the specific location of the damage on the cable.
- Restoration service was restored by moving the community of Linden to a different fiber optic pair.
- Frontier placed test 911 calls from the community to verify restoration.

WEATHER OF CONCERN

Weather of Concern

- Gale winds are expected Friday afternoon through Saturday for the Outer Waters including the Inner Waters north of Point Conception with Gale force winds possible for the Inner Waters south of Point Conception Friday evening.
- Onshore flow through the weekend with cooler than normal temperatures in the California interior.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

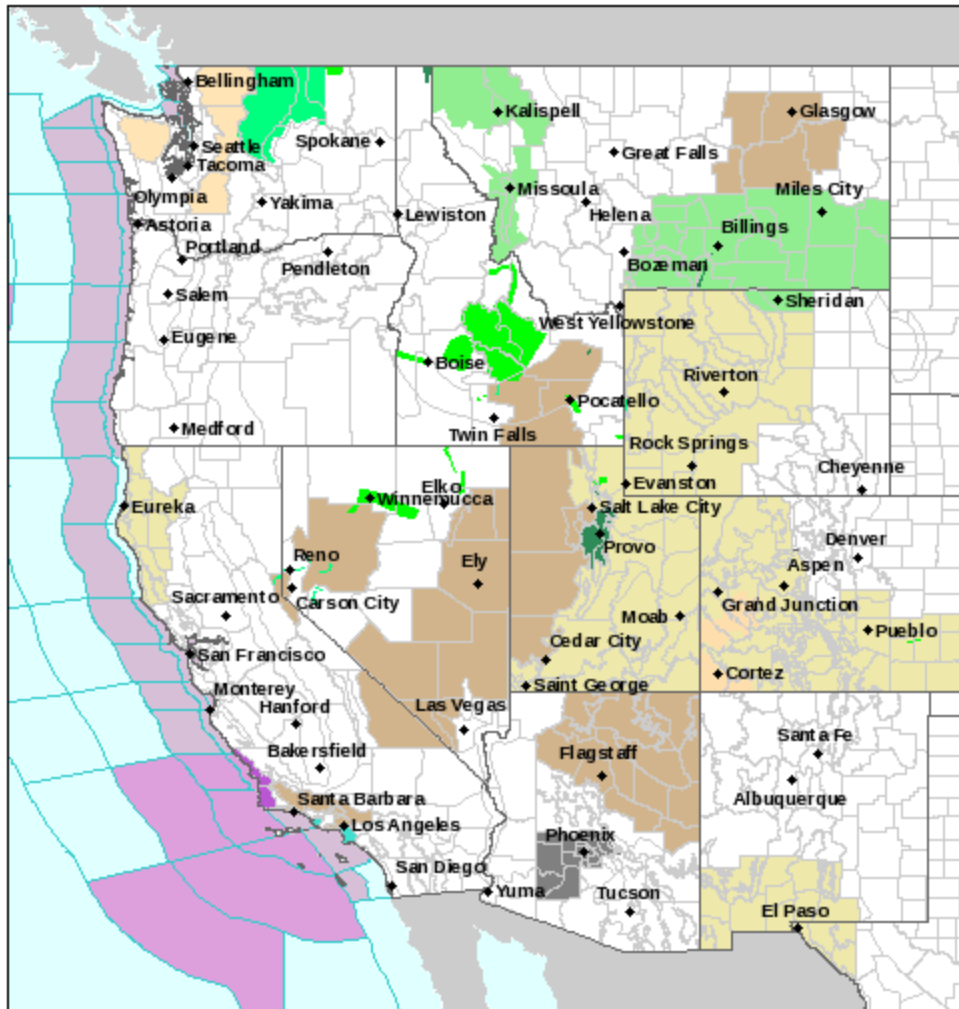

NORTHERN CALIFORNIA

A deep low pressure area west of the Pacific northwest will be the main weather influence on the weather throughout Northern California over the next several days. Several waves of light showers, isolated thunderstorms, and gusty southwest winds will move through Northern California between now and next Wednesday. Temperatures will be cooler than normal during this time. Snow levels will be 6000-7000 feet today, but drop to 4000-5000 feet tomorrow through next Wednesday. Peak gusts in wind-prone mountain locations will be 30-40 mph out of the southwest this afternoon. Other areas will see gusts reach 20-30 mph.

SOUTHERN CALIFORNIA

Temperatures will warm to near normal today as a weak ridge of high pressure remains across the region, with 60s to low 70s across the mountains and mid 70s to mid 80s in the valleys. A Pacific trough will cause temperatures to become 5 to 10 degrees below normal Friday through the middle of next week, with 50s to low 60s across the mountains and mid 60s to mid 70s in the valleys. Southwest to northwest winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes this afternoon through the middle of next week. Scattered showers and thunderstorms will be possible, mainly over the Sierra, Monday afternoon through the middle of next week. Minimum humidity will be above 20% away from the deserts through Saturday, and then minimum humidity will be above 30% away from the deserts Sunday through the middle of next week.
